CALL TO ORDER

By Gene Berger, Chair, at 6:45 p.m.

ACTION ITEM^[L]_[SEP]

Motions to eliminate the central trail and bioswale in the SCNP Demonstration Garden shown on sheets L8, C-6 and C-7 of the Hillside Improvements Project. The existing trail works well, and the new trail and “revegetation” shown on Sheet L8 needlessly remove dozens of established native plants. Similarly, the bioswale can be eliminated since native plants in the native plant Demonstration Garden area have effectively eliminated the sheet flow (from incident rainfall) that used to flow over this area prior to the installation of the native plants. The SCNPC recommends retaining as many established native plants as possible.

MOTION 1: Whereas: the existing trail through the Demonstration Garden meets the needs for a trail through this area, and there are already healthy California native plants growing in the areas to be cleared so this work should not be done, **the DIP & WMEC committees recommend and I move that the secondary trail and all 10-foot wide clearing on each side of the 3-foot wide trails in the Demonstration Garden be eliminated.**

MOTION: Moved by Cammie Ingram

MOTION: Motion passed unanimously. (12 yes; 0 no; 0 abstain)

MOTION 2: Whereas: the bioswale shown on the east side of the trail on sheets C-6 and C-7 of The Hillside Improvements Project can be eliminated since native plants in the native plant Demonstration Garden area have effectively eliminated the sheet flow (from incident rainfall) that used to flow over this area prior to the installation of the native plants, and since the SCNPC recommends retaining as many established native plants as possible, the **DIP & WMEC committees recommend and I move that the above mentioned bioswale be eliminated.**

MOTION: Moved by Cammie Ingram

MOTION: Motion passed. (9 yes; 1 no; 1 abstain)

ADJOURNMENT:

Hearing no objections, the Chair adjourned the meeting at 8:15 p.m..
